Industry Professionals at work for you

MULTINATIONAL SUPPORT IN DELIVERING TECHNICAL SKILLS

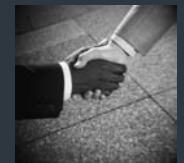

Rust Resources is an international provider of skilled Technical Personnel. Our primary area of business is the Oil and Gas Industry, from Exploration through to Production. Rust is proud of the fact that the vast majority of its clients have been using our services for over 20 years. From Project Directors through to Engineering and Production personnel, Rust has an unmatched resource base of some of the industry's most talented and respected professionals

It is not unusual for former client personnel to become Rust Project Personnel, a reference we happily accept. With our international reputation and reach Rust offers a complete and trouble free solution to International Staffing requirements on complex projects in distant locations. With the majority of our personnel possessing more than 15 years experience, Rust is a well of tested expertise. Our international teams offer International solutions with local support

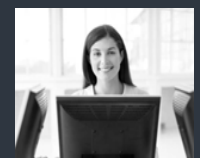

GLOBAL SOLUTIONS

From one individual to a complete project team. Rust has the expertise and experience to deliver the right skills wherever and whenever they are required. From Kazakhstan to China, the USA to the Middle East, Rust has a selection of technical and project professionals to satisfy most requirements.

LOCAL SOLUTIONS

Rust is effective in the delivery and support of our personnel through a strong local presence wherever necessary. Aside from existing international offices we have local support operations in China, Norway, Kazakhstan, Australia, Singapore and Southern Africa. This ensures the maximum effectiveness of our personnel at all times.

CONTINUOUS SUPPORT

Rust Resources prides itself in having one of the lowest attrition rates in the industry. Through dedicated and constant support to our personnel we ensure maximum focus and delivery through removing concerns regarding family, medical and personal implications of deployment.
